

## Education Trip to Heng Lee Sauce Factory

23rd August 2008 (Saturday)

### HISTORY OF HENG LEE SAUCE FACTORY

Heng Lee Sauce Factory was set up more than 40 years of History. It's strength begins with their quality of the product and services. Manufactured with natural and traditional way, the basic recipe of each sauce and paste variety are carefully tested, and perfected. And nowadays, Heng Lee's products are found not only in Peninsular Malaysia, but also in East Malaysia, Singapore, Brunei and Indonesia. All products produced by Heng Lee Sauce Factory are certified HALAL, even tested and approved by Ministry of Health. Among the products are light soya sauce, thick soya sauce, thai chili sauce, sweet soya sauce, vinegar, bean sauce, ill bean sauce, black bean paste, black sweet paste, chili sauce, tomato sauce, lemon sauce, plum sauce, plum juice syrup, whole sour plum, plum paste, vegetarian chili sauce and special made sauces have been widely used in restaurant, as well as by families of all races who share a passion for Chinese Food.

*Mr. Baey, the Founder showing us how to gauge the consistent of salt water by using a bottle which filled with small stone.*

*These big barrel can contain up to 4000kg salt to infuse the tap water for soaking the beans.*

40 of us was spending 2 hours to visit Heng Lee Sauce Factory on 23rd Aug 2008 (Saturday) which located at Hong Seng Estate. Ms. P'ng, our tour guide was explaining the way how they manufacture all kinds of sauce that made by white and black soya beans. To produce soya sauce, it need at least 180 days to boiled, steamed, coated with wheat flour and rest, after that fermentation in a barrel for few months, then pump out the soya sauce. At the end, Heng Lee Sauce Factory given goodie bags to everybody, this is a nice and experience trip that we know better how is Soya Sauce Made.....

*I think this barrel can put 10 Lay Yen into it. Want to try?*

*Ms. P'ng : " This bean paste need fermentation at least 120 days."*
